Tool-Temp's legendary Swiss craftsmanship plus Advance Products' more than 50 years of solid American engineering and manufacturing expertise.

TOOL-TEMP®

Tool-Temp is Europe's largest manufacturer of temperature control units and famous for manufacturing the most trouble-free Temperature Control Units available anywhere.

With a proven track record of quality products and unequalled service, these two world-class companies have teamed up to provide plastics molders with better solutions to mold temperature control solutions that include water and oil TCUs as well as chillers.
